CHAIR'S REMARKS

Ryan mentioned he had been reminded of the "StopGap" project, that with material donations from community hardware stores and volunteer labour, you can have a custom ramp made at little to no cost.

He added that the brightly coloured ramps do not present a perfect solution to the problem however they do get people talking about the much bigger issue of inclusivity and accessibility for all.

Ryan will make some enquiries at Home Depot for the possibilities of having the materials donated, and look into getting the volunteers from Career Services.
